## **SAVE THE DATE for Chemspec Europe 2024 Where Fine and Speciality Chemicals Meet Innovation**

**Chemspec Europe 2024 is confirmed to take place from 19 - 20 June 2024, with Messe Düsseldorf, Germany, as its next stop to showcase the full array of fine and speciality chemicals, bespoke solutions, services, and equipment. Following the success of the 2023 edition, which featured 353 exhibitors from 24 countries on a record net exhibition space of 6,672.5 m<sup>2</sup>, stand requests for next year are already in high demand. With stand booking now open to all new exhibitor enquiries, 8 months before the show, 80% of floor space has already been allocated.**

In a rapidly evolving industry, success hinges on seizing opportunities and staying ahead of the curve in innovation. Chemspec Europe 2024 provides a platform to establish exhibiting companies as thought leaders, showcase technologies and trends and explore new avenues of growth. With a longstanding legacy of excellence, the 37th International Exhibition for Fine and Speciality Chemicals continues to be the preferred destination for industry professionals worldwide.

“Connecting with customers, suppliers, and the broader industry is a driving force for staying abreast of current market trends. The fine and speciality chemicals sector is actively involved in pioneering materials research, encompassing fields such as biochemistry and nanotechnology, with a strong focus on sustainability and green initiatives. Moreover, AI, cloud computing, and data analytics drive digitalisation within the sector and raise attention towards high cyber vulnerability, calling for blockchain-based protection measures to bring traceability and transparency to supply chains”, comments Liljana Goszdziewski, Exhibition Director for Chemspec Europe, on behalf of show organiser RX. “As the chemical industry undergoes these significant transformations propelled by technological advances, digitalisation, environmental considerations, and shifting consumer demands, Chemspec Europe remains the pivotal platform for industry players to embrace these changes, exchange expertise, and forge valuable partnerships.”

The event attracts industry leaders, entrepreneurs, researchers, and experts, from a wide variety of industrial sectors and offers an unparalleled opportunity to connect with a diverse and influential global audience. With 73% of visitors at Chemspec Europe covering top-tier decision-making functions within their organisation, exhibitors can expect two days of valuable trading, networking, and learning opportunities with key players from international organisations looking to source bespoke products and gain insights into the latest industry knowledge, ongoing R&D projects and innovations.

## **Exhibitor Information and Stand Bookings**

Companies interested in exhibiting at Chemspec Europe 2024 can find all relevant information at [www.chemspeceurope.com](http://www.chemspeceurope.com). The website includes detailed information on the exhibition profile, participation benefits, stand options and shell scheme packages, as well as marketing and sponsorship opportunities to increase exhibitors' visibility online and offline. If interested, please get in touch with the Chemspec Europe Team to get a tailored participation proposal.

## **Early Accommodation Booking Alert**

Visitor registration for complimentary tickets to Chemspec Europe will be available from January 2024. However, RX, the event organiser of Chemspec Europe, strongly recommends exhibitors and visitors interested in attending the event to secure hotel accommodation well in advance. Due to the UEFA Euro 2024 taking place simultaneously in Germany, hotel availability may be limited. Please visit the [Travel Hub](#) to check room availability, take advantage of discounted rates for group booking and receive assistance from a dedicated hotel booking concierge from the new hotel accommodation Partner, HotelMap.
